

CAINTON

Change is a perpetual motion

Mechanical Product

- Fan Impeller - p.1
- Mechanical Product - p.2-3
- Metal Processing Service - p.4

Fan Impeller

Cainton has advanced technology and equipment that is able to provide various kinds of processing and production, covering machining parts, pipe, fitting, valve, etc.

- Axial Flow Fan
- Forward Centrifugal Fan Impeller
- Backward Centrifugal Fan Impeller
- Cross Flow Fan Impeller

Mechanical Product

We have advanced technology and equipment that is able to provide various kinds of processing and production, covering machining parts, pipe, fitting, valve, etc.

- Pipe/Tube

- Fitting

- Flange

Mechanical Product

We have advanced technology and equipment that is able to provide various kinds of processing and production, covering machining parts, pipe, fitting, valve, etc.

- Valve

- Fastener

- Enclosure/Cabinet

Metal Processing Service

Our engineers and designers can assist with your mechanical design whether you need to develop a new design, or improve an existing one.

Metal Processing Service include:

- CNC Machining
- Hot and Cold forging
- Die-casting
- Sheet Metal Fabrication
- Stamping
- Aluminum Extrusion
- Mold Development
- Metal Material Selection

The logo for Cainton, featuring the word "CAINTON" in a bold, blue, sans-serif font. The letter "O" is replaced by a stylized gear or circular motion icon with eight teeth.
